

MULTI-LEVEL MECHANISMS TO SUPPORT SPORADIC CLOUD COMPUTING MOBILE SERVICES BY RESOURCE-SHARING IN VANET

MOTIVATION

- ▶ Intelligent Transport Systems (*ITS*):
 - Traffic accidents
 - Traffic management
 - Infotainment
- ▶ Cloud Mobile Augmentation (CMA):
CMA is a model that employs resource-rich clouds to enhance computing capabilities of mobile devices.

▶ We want to develop a new concept of sporadic CMA to deploy contex-aware services in VANET.

Allowing to support the concept of ITS with vision towards Smart Cities.
